

Autism Awareness

This course provides an overview of Autism for those that work with children and young people. It covers what autism is, its prevalence and causes, how it is diagnosed and the implications for pupil learning. At EduCare we ensure that all of our training courses are written and endorsed by experts. This course has been written in partnership with SEND specialists at Connect.

Key features

- Level 2 course (as graded against the nationally accepted levels, equivalent to GCSE grades A*-C).
- One module with a multiple choice questionnaire.
- One CPD hour with a personalised downloadable certificate.
- 70% pass mark.
- Written in partnership with experts at Connect.
- Optional narration of the module for accessibility.
- Additional resources for further learning and printable module for future reference.

Course objectives

After completing this course you will:

1. understand what autism is
2. know the terminology used to describe autism
3. learn about the prevalence of autism
4. understand how autism is diagnosed
5. be able to identify the indicators that may suggest the presence of autism
6. recognise the ways that autism can affect learning
7. understand how to report concerns about autism
8. have learnt tips for an autism-friendly approach in classroom environments.

Why choose us?

“ I really enjoyed completing the EduCare modules. I found them to be interesting, informative and easy to follow. I particularly liked the fact that the modules were complemented with narration. ”
